THEREFORE, in consideration of the mutual covenants and promises set forth herein, City and Contractor agree as follows:

1.     SCOPE OF WORK. This Agreement shall be automatically renewed for four (4) successive one-year terms upon Contractor providing written notice of Contractor's intent to renew to City at least four (4) months prior to the expiration of the then-current term unless City gives written notice of termination to Contractor within thirty (30) days after receipt of Contractor's written notice of intent to renew. If Contractor fails to provide City with written notice of intent to renew at least four (4) months prior to the expiration of the then-current term, then any renewal of the Agreement will be at the sole option of City and City may provide notice of termination to Contractor at any time prior to the expiration of the then-current term. 5. PERMITS AND LICENSES. Contractor agrees to obtain, at Contractor's expense, all permits and licenses required by law or ordinance in connection with Contractor's performance of the work, and maintain the same in full force and effect for the term of this Agreement and any renewals thereof (including, but not limited to, a City business license).

If Contractor fails to correct unsatisfactory work in a timely manner, City may proceed to correct the work and all reasonable direct costs occasioned in the performance of such corrective work shall be withheld and deducted from any payments due the Contractor in addition to any other legal rights and remedies available to City as a result of Contractor's breach.

B. Contractor's employees shall interact with residents and visitors in a courteous manner and shall avoid the use of loud, abusive, vulgar, or obscene language or behavior.

9. SITE INVESTIGATION. Contractor acknowledges that Contractor has inspected

12. BREACH OF AGREEMENT BY CONTRACTOR. In the event of a breach of this Agreement by Contractor, City agrees to give Contractor written notice of the breach. If within seven (7) days of receipt of the written notice the Contractor has not cured the breach, City may terminate this Agreement by written notice to Contractor without prejudice to and in addition to any and all other remedies at law or in equity available for such breach.

All arbitration proceedings shall be conducted in Charleston County, South Carolina. The arbitrators

shall be selected as provided in the SCUAA, and the arbitrators shall render a decision on any dispute within ninety (90) days after the last of the arbitrators has been selected. If any party to this Agreement fails to select an arbitrator with regard to any dispute submitted to arbitration under this Section within thirty (30) days after receiving notice of the submission to arbitration of such dispute, then the other party or parties shall select an arbitrator for such non-selecting party, and the decision of the arbitrators shall be final and binding upon all the parties to the dispute, their personal representatives, legal representatives, heirs, successors and assigns. The prevailing party in any such proceeding shall be entitled to reimbursement by the losing party, in addition to any damages awarded, for all reasonable costs and expenses, including attorney's fees, incurred in any such proceeding, including all trial and appellate levels. Nothing contained in this Section shall preclude either party from seeking injunctive relief through a court of competent jurisdiction in connection with the Arbitration, and the prevailing party shall also be entitled to reimbursement by the losing party for all reasonable fees and costs, including attorney's fees, incurred in the proceedings seeking injunctive relief.

14. ENTIRE AGREEMENT; AMENDMENTS. This Agreement constitutes the entire agreement between the parties hereto relating to the subject matter hereof, and supersedes and nullifies all prior or contemporaneous agreements, understandings or representations regarding matters contained in this Agreement, whether oral or written. Neither party is relying upon any representation not expressly contained herein. This Agreement may be amended and modified from time to time only upon the written mutual consent of City and Contractor.

15. BINDING AGREEMENT. This Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective successors and permitted assigns.

16. EFFECT OF WAIVER OR CONSENT. A waiver or consent, express or implied,

to or of any breach or default by a party in the performance of its obligations under this Agreement is not a consent or waiver to or of any other breach or default in the performance by that party of the same or any other obligations of that party with respect to this Agreement. Failure on the part of a party to complain of any act of the other party or to declare a party in default with respect to this Agreement, irrespective of how long that failure continues, does not constitute a waiver by that party of its rights with respect to that default until the applicable statute-of-limitation period has run.

17. GOVERNING LAW; SEVERABILITY. This Agreement is governed by and shall be construed and interpreted in accordance with the laws of the State of South Carolina, excluding any conflict-of-laws rule or principle. If any provision of this Agreement is held invalid or unenforceable to any extent by a court of competent jurisdiction, the remainder of this Agreement is not affected thereby and that provision shall be enforced to the greatest extent permitted by law.

  2. Quarterly applications of pine straw or equivalent mulch. Top dressing as necessary to prevent bare spots between applications. City staff estimates that at least 1,000 bales of pine straw will be necessary per application for all areas included in this contract. The total estimated pine straw needed per year is 2,000 bales.

3. Collection and removal of clippings, limbs, leaves, fallen debris and trash from lawns and beds.
4. Edging, blowing and/or sweeping adjacent sidewalks as needed during the growing season depending on growing conditions.
5. Trimming around signs, light poles, trees, etc., as needed to maintain neat appearance. Contractor's personnel will exercise caution to avoid scarring of signs, light poles, trees and shrubs.
6. Maintaining irrigation systems by performing weekly tests to guarantee proper coverage, functioning equipment and absence of water leaks. Routine replacement parts and labor should be included in the proposed price. Significant repairs to pumps or whole sections of the system will be funded by the City upon ratification.
7. Fertilization and pre-emergent treatment of lawns and flower beds at least twice annually. Additional applications as necessary to insure superior aesthetics.

12. Weekly testing of landscape lighting to ensure proper working order. Notify the City in a timely fashion any needed repairs.
13. Blowing or sweeping of boardwalks and Mobi Mat material on public beach access paths. The following public beach access paths are equipped with Mobi Mats: 5<sup>th</sup> Avenue, 9<sup>th</sup> Avenue, 41<sup>st</sup> and 42<sup>nd</sup> Avenue. Additional locations might be included in the future. Boardwalks are located at the Front Beach Public Restrooms, 1140 Ocean Boulevard, 21<sup>st</sup> Avenue and 46<sup>th</sup> Avenue public beach access paths.

**3) For purposes of this Agreement, "garden services" includes:**

1. Seasonal plantings for optimal color and appearance per the schedule provided. The use of perennials is acceptable with prior approval. When using annuals, the planting density should equate to three to five 3-inch pots per square foot. The goal should be a lush, colorful display. The per-flat cost for plantings should include all soil preparation, fertilizer and mulch costs.

2. Maintenance of City Hall flowerboxes as indicated in the site specifications below. Re-potting for seasonal color at least four times per year.

3. Enhancement of the current landscape where contractor deems it advantageous and cost effective. This could include transplanting existing plants to better locations. The City will appreciate any advice or suggestions by the Contractor and will look to the Contractor as a partner in the beautification of the City's public spaces. Enhancements that would require payment outside of this contract must be approved by the City Administrator in advance and will be assessed on a case by case basis.

**4) Specific requirements for each area are as follows:**

- A. Connector gateway garden located on both sides of the Isle of Palms Connector where it intersects Palm Boulevard. This area is the main gateway to the island and should be emphasized by the Contractor. It has been redesigned, but requires maintenance, seasonal plantings, and pine straw/mulch. Winter overseeding of the lawn areas should be included.
- B. Leola Hanbury Memory Park garden located at the corner of Palm Boulevard and the Connector Bridge. This area was professionally designed and planted by the Isle of Palms Garden Club. Foundation plantings should be maintained as-is with seasonal color added bi-annually. Winter overseeding of the lawn areas should be included.
- C. The Public Safety Building is located at 30 J.C. Long Boulevard. This site includes two municipal parking lots behind the building which are referred to as "Lot B" and "Lot A." Services to these sites shall include general landscape maintenance such as mowing, edging and weeding. The City may order additional pine straw or flowers for this area as needed for contract prices.
- D. City Hall grounds should also be emphasized by the Contractor. Curving flower bed in front will require seasonal plantings at least four times a year. Weeding and edging as necessary to keep appearance neat. Appropriate trimming of bushes to ensure sign visibility. Two window-box type containers on the second level should be included in the maintenance for this site. This should include checking for leaks on

the water hoses that run into the flower boxes. Winter overseeding of the lawn areas should be included.

- E. Breach Inlet site includes right-of-way lawn, ligustrum hedge and flower bed surrounding City sign. The right of way area across Carolina Boulevard from the sign (the wedge in between Carolina Blvd. and Palm Blvd.) should also be included in this site. Winter overseeding of the lawn areas should be included.
- F. Front Beach area located on Ocean Boulevard between 10<sup>th</sup> and 14<sup>th</sup> Avenues, up to and including the center median opposite the gate to the County Park. This area is a focal point of the island and as such requires special attention. The summer season sees an influx of foot and vehicular traffic in this area. The City desires maximum landscaping “punch” in this section. Winter overseeding of all lawn areas should be included. Extreme summer heat, limited irrigation, and high levels of vehicle exhaust should be considered in plant selection for this area.

**Front Beach areas for seasonal color:** There are 6 main areas where the City requires a punch of color. These are located at the ends of the medians on Ocean Boulevard from 10<sup>th</sup> through 14<sup>th</sup> Avenues.

**Front Beach areas for ground cover:** There are approximately 150 trees in the area, mostly palmettos. Many have marble markers and are planted as insets in the pavement. These inset trees should be surrounded by some sort of living ground cover, to include hardy plants that can survive foot traffic.

**Front Beach areas for lawn maintenance:** All right-of-way and common areas along Ocean Boulevard from 10<sup>th</sup> through 14<sup>th</sup> Avenue. The lawn area in front of the Public Restrooms should be included. Also to be included is the median located around the curve and across from the County Park.

**\*\*Front Beach Irrigation System: The existing irrigation system in the Front Beach area might be insufficient to support the quality landscape that this bid requires. The cost of any irrigation improvements that the Contractor deems necessary should be included as an alternate to this bid.**

- G. 41<sup>st</sup> Avenue curve. This area has recently been upgraded and now needs routine maintenance and bi-annual mulch applications. Winter overseeding should be included.

- H. Isle of Palms Marina. This area requires general maintenance in all landscape and lawn areas located from the entrance by the Fire Station site outward to the Intracoastal Waterway and Morgan Creek. There are 3 main landscaped beds located roughly in the center of the property from the entrance toward the fueling dock. Winter overseeding IS NOT required at the Marina.
- I. Fire Station #2 is located at 40 41<sup>st</sup> Avenue. Services to this site shall include general landscape maintenance such as mowing, edging and weeding. The City may order additional pine straw or flowers for this area as needed for contract prices.
- J. Public Beach Access Paths. Boardwalks and public beach access paths with mobi-mat shall be blown or swept free of trash, leaves and accumulated sand as needed, with a minimum frequency of twice per week. It is anticipated that a minimum of four to five blowings per week may be required between the months of April and September to maintain clean and safe conditions. Heavy sand accumulations shall be removed from boardwalks and mobi-mats as needed.
